Common Data Set C: First-Time, First-Year (Freshman) Admission (2005-2006)**Applications**

C1. First-time, first-year (freshman) students:

Provide the number of degree-seeking first-time, first-year who applied, were admitted, and enrolled (full- or part-time) in Fall 2005. Include early decision, early action, and students who began studies during summer in this cohort. Applicants include all students who fulfilled the requirements for consideration for admission (including payment or waiving of the application fee, if any) and who have been notified of one of the following actions: admission, no admission, placement on waiting list, or application withdrawn (by applicant or institution). Admitted applicants should include wait-listed students who were subsequently offered admission.

Common Data Set G: Annual Expenses (2005-2006)

Provide 2006-2007 academic year costs for the following categories that are applicable to your institution.

☒ Check here if your institution's 2006-2007 academic year costs are not available at this time and provide an approximate date (i.e., month/day) when your institution's final 2006-2007 academic year costs will be available: **march 2006**

G1. Undergraduate full-time tuition, required fees, room and board

List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL 2006-2007 academic year. A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters or trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are NOT included in tuition (e.g., registration, health, or activity fees.) Do NOT include optional fees (e.g., parking, laboratory use).

Aid Awarded to Enrolled Undergraduates

H1. Enter total dollar amounts **awarded** to enrolled full-time and less than full-time degree-seeking undergraduates (**using the same cohort reported in CDS Question B1, “total degree-seeking” undergraduates**) in the following categories. (Note: If the data being reported are final figures for the 2004-2005 academic year (see the next item below), use the 2004-2005 academic year's CDS Question B1 cohort.) Include aid awarded to international students (i.e., those not qualifying for federal aid). **Aid that is non-need-based but that was used to meet need should be reported in the need-based aid column.** (For a suggested order of precedence in assigning categories of aid to cover need, see the entry for “non-need-based scholarship or grant aid” on the last page of the definitions section.)

Common Data Set I: Instructional Faculty And Class Size (2005-2006)

I-1. Please report number of instructional faculty members in each category for Fall 2005. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP.

The following definition of instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey. Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Institutions are asked to EXCLUDE:

	Full time	Part time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or predoctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaskan native; Asian or Pacific Islander; or Hispanic.

Doctorate: includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology.

First-professional: includes the fields of dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD) and theological professions (MDiv, MHL).

Terminal degree: the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

	Full time	Part time	Total
a.) Total number of instructional faculty	353	518	871
b.) Total number who are members of minority groups	96		
c.) Total number who are women	183		

d.) Total number who are men	170		
e.) Total number who are non-resident aliens (international)	0		
f.) Total number with doctorate, first professional, or other terminal degree	300		300
g.) Total number whose highest degree is a master's but not a terminal master's			
h.) Total number whose highest degree is a bachelor's			
i.) Total number whose highest degree is unknown or other (Note: Items f, g, h, and i must sum up to item a.)	53		56
j.) Total number in stand-alone graduate/ professional programs in which faculty teach virtually only graduate-level students			

I-2. Student to Faculty Ratio

Report the Fall 2005 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2005 Student to Faculty ratio:	14 to 1 based on students and faculty
-------------------------------------	---------------------------------------

I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2005 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2005. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

Common Data Set J: Degrees Conferred (2005-2006)

Degrees conferred between July 1, 2004 and June 30, 2005

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and Bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g. students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
