B2 Enrollment by Racial/Ethnic Category.

Provide numbers of undergraduate students for each of the following categories as of the institution’s official fall reporting date or as of October

- Include international students only in the category "Nonresidents."
- Complete the “Total Undergraduates” column only if you cannot provide data for the first two columns.
- Report as your institution reports to IPEDS: persons who are Hispanic should be reported only on the Hispanic line, not under any race, and persons who are non-Hispanic multi-racial should be reported only under "Two or more races."
- New guidance from IPEDS for reporting aggregate data:

Racial/ethnic designations are requested only for United States citizens, residents, and other eligible non-citizens. Eligible non-citizens include all students who completed high school or a GED equivalency within the United States (including DACA and undocumented students) and who were not on an F-1 non-immigrant student visa at the time of high school graduation.

More information about other eligible (for financial aid purposes) non-citizens is available at https://studentaid.gov/understandaid/eligibility/requirements/non-us-citizens.

Nonresident - A person who is not a citizen or national of the United States and who is in this country on a student visa or temporary basis and does not have the right to remain indefinitely. Do not include DACA, undocumented, or other eligible noncitizens in this category.

NOTE - Nonresidents are to be reported separately, in the boxes provided, rather than included in any of the seven racial/ethnic categories or in race/ethnicity unknown.

Dual Enrollment: If your institution enrolls high school students in college courses for credit either within a dual enrollment program or outside of a dual enrollment program, you may report the unduplicated count as part of the non-degree-seeking students included in the "Total Undergraduates (both degree & non-degree-seeking)" section.

- Food and housing is defined as double occupancy and 19 meals per week or the maximum meal plan.
- **Required fees include only charges that all full-time students must pay that are not included in tuition**

I-2. Student to Faculty Ratio

Report the Fall 2024 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students.

• Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2024 Student to Faculty ratio	12	to 1	(based on	6332	students
			and	451	faculty).

I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2024 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2024. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

J. Disciplinary areas of DEGREES CONFERRED

J1 Degrees conferred between July 1, 2023 and June 30, 2024

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
